What is a Supporting Business Document?

When you sign a customs Power of Attorney (POA) with BorderBuddy, U.S. Customs and Border Protection requires us to confirm that the person signing is authorized to act for your business. One corporate document is all we need, as long as it meets the three criteria below.

1 ALL THREE REQUIRED

Shows your business name

The legal name of the company as it appears on your POA, not a DBA or trade name on its own.

2

Names the POA signer

The signer appears as an owner, officer, director, member, manager, partner, or someone with delegated signing authority.

3

Names in English characters

The business name and signer's name must appear in English (Latin) characters, matching the signer's passport. If the document is only in another script, include a certified translation or a bilingual version.

Examples of documents we accept

Any **one** of the following will work, provided it meets all three criteria above.

Formation & registry

- ✓ Articles of incorporation
- ✓ Certificate of formation / organization
- ✓ Certificate of good standing or equivalent registry document
- ✓ State filing naming LLC managers or members
- ✓ Corporate bylaws

Governance & authority

- ✓ Board resolution or written consent of directors
- ✓ Certificate of incumbency
- ✓ Delegation of authority / signing authority letter
- ✓ LLC operating agreement
- ✓ Partnership agreement
- ✓ Limited partnership agreement / general partner authorization

For non-U.S. companies

- ✓ Foreign corporation certification
- ✓ Home-country registry extract naming directors / officers

Send it with your POA

Attach the document when you return your signed POA so we can activate your account without delays.

Any clear copy works

A PDF, scan, or clear photo is fine. Please make sure the business name and the signer's name are legible and in English characters.

Not sure which to use?

Your accountant, registered agent, or corporate secretary usually has one on file, or ask your BorderBuddy team.
